Tournament Beneficiaries

The Faison Center, in Richmond, VA, is a non profit organization dedicated to individuals impacted by autism spectrum disorder (ASD). The Center's mission is simple - to give each individual with autism the best chance to improve their life's journey. Their mission across the lifespan is accomplished through specific programs designed to meet the needs of families at different points in their lives: the School for Autism, the Behavioral Health Clinic, and Adult Services – including the cutting edge Faison Residence. From diagnoses through adulthood, services are provided by experts in the autism field employing only the best methods and techniques.

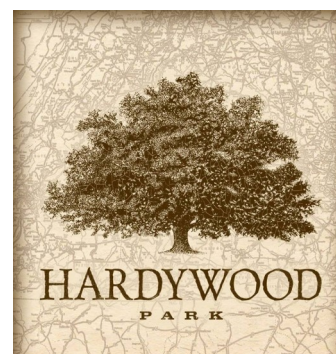

All programs at the Faison Center use a unique, three-pronged approach using evidence-based treatment, research and community education to give children and adults the tools needed to improve their life's journey. The Center's approach is wholistic, seeking to assist the child, the family, and all who have an impact on the child's life.
